

25th July 2023

Sanctions & Restrictions to Trade

Since the beginning of the conflict between Russia and the Ukraine, multiple sanctions have been imposed on Russian supplied products by many countries across the World.

At the end of 2022, and in early 2023, the EU made further amendments to Regulation (EU) No. 833/2014 which directly referred to specific CN codes of products to be prohibited from importation to EU.

We can confirm that United Cast Bar Group is not affected by these changes, and has made necessary investigation in to supply chains to be assured we are compliant.

If anyone has any specific concerns, please make contact with your local UCB Distributor or Sales representative and we will answer all questions as accurately as we can.
