Title:	Quality Policy Statement			

It is the Company Policy that "Quality" of service and product is the prime object of all Company Employees. This is achieved by commitment at all levels of the Organisation, from the Chief Executive Officer down.

The reference Standard for the company is based on the International Quality Standard BS EN ISO 9001:2015. The authority of the Company's appointed Quality Representative affects incoming materials, process controls, and verification of work carried out at all stages.

The purpose of the Quality System is to ensure that the determined requirements of existing and potential Customers are met and provides a platform for establishing measurable objectives to be established at relevant levels and functions within the organisation.

The policy is written in cognisance of the internal and external issues and requirements of the interested parties, the stated objectives taking into account any potential risks. It defines measurements to monitor the performance of the process against these stated objectives.

The data from measurements and customer feedback is analysed to review the process's objectives in order to assess suitability, adequacy and effectiveness of the system, policy and objectives. This in turn leads to Continual Improvement of the effectiveness of Quality Management System

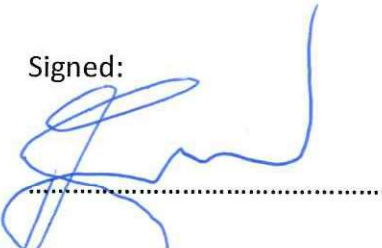

There shall be an ongoing education, appraisal, and training/development programme to ensure that personnel at all levels are fully conversant with this policy and are capable of meeting its objectives.

This quality policy statement envelops Operational and Quality Assurance systems at both United Cast Bar (UK) Ltd. Chesterfield and Cast Profil SAU Zaragoza.

Signed:

Date:

1st August 2018

.....
James Brand
Managing Director
